“Sir, Your Grace's Displeasure and my Imprisonment are Things so strange unto me, as what to Write, or what to Excuse, I am altogether ignorant.”

Thus opens a burned fragment of a letter dated 6 May 1536 and signed “Anne Boleyn”, a letter in which the imprisoned queen fervently proclaims her innocence to her husband, King Henry VIII.

This letter "from the Lady in the Tower" has divided historians in recent years, with some dismissing it as a fake. There has been no definitive study of the letter or its mysterious provenance... until now. In *Anne Boleyn's Letter from the Tower*, Sandra Vasoli provides an in-depth investigation of the individuals who may well have kept the letter safe for nearly 500 years, from author to its present home in the British Library.

- Did Anne Boleyn actually compose the letter from the Tower?
- Did Henry VIII regret his final tragic actions against Anne Boleyn?

Sandra Vasoli unravels the mysteries of this letter and also reveals a startling comment found buried in an age-old document which gives us a cryptic clue into Henry VIII's anguish over his second wife. By Sarah Bryson

Sandra Vasoli's book is a refreshing and exciting new look at the letter famously written by Anne Boleyn on the 6th of May 1536, from her rooms in the Tower of London. Throughout the centuries there has been a great deal of debate as to whether or not this eloquent letter was actually written by Anne Boleyn. Some historians suggest that it was not while others say it must belong to Anne as it reflects her famous style and wit.

Vasoli had the great honour of examining the original letter and was able to put together an extremely

plausible timeline of the whereabouts of this famous letter from the time that it was written until the present day. She examines not only the letter but also the letters of her gaoler Sir Kingston as well as other historical documents and people which may have handled or known the whereabouts of the letter. She then compiles an extremely strong argument, based on detailed evidence and research, as to why this letter was indeed composed by Anne Boleyn.

Sandra also offers up a tantalizing piece of evidence which may shed new light upon Henry VIII's personal thoughts and feelings towards the downfall and execution of his second wife.

This is a brilliant book which thoroughly examines all the evidence to provide a very compelling case that in fact the letter written on the 6th of May 1536 was indeed composed by Anne Boleyn. I would strongly recommend this book to anyone interested in Anne Boleyn or Tudor history.

A Good Assessment

By Stargazer Mom

For years, scholars have debated as to whether the letter supposedly written from the Tower by Anne Boleyn to Henry VIII is real or a forgery written during the reign of their daughter Elizabeth I. In her book, Sandra Vasoli traces the torturous path the letter took after Anne's execution. Although there is no absolute proof, by tracing the connections the letter had to important historical figures, and the connections they had throughout history, compelling proof is put forward that this elegant letter was in fact written by Anne Boleyn but kept from the King by Thomas Cromwell.

Reminded me that I was once an Anne fan

By L V Meade

Sandra Vasoli has written a scholarly & carefully researched work regarding the provenance of the enigmatic "last letter" believed to be dictated by Queen Anne. The compact book rekindled my interest in all things Anne Boleyn. I thought over & over, while reading, that if young woman were exposed to historical events by an author like Vasoli, they might have more of an interest in learning from the past. Looking forward to reading "Je Anne," next.
