Introspective classic

By Melinda

Herman Hesse is like coming home. I was fascinated to learn this predates Siddhartha and that it is not better known as it seems to surpass even the subtle introspective epiphanies in that novel.

Great Read

By Amazon Customer

Very well written and enjoyable book. It is not for small children despite the short length as it is rather

complex and has varying levels of meaning.

Along with Siddhartha, Demian is another Hesse classic

By Joe Dinius

Great story of coming of age and feeling a sense of oneness to the connected natural and spiritual world. There were many great characters and interesting philosophical observations along the way. The introduction by James Franco seemed a bit disconnected to the book itself and self-serving, but the other introduction (by which scholar I have forgotten) was wonderfully researched and well written.
