How to Stop Stuttering

The logical and traditional way to approach stuttering is to try to treat, stop, overcome or manage it. The only problem is, this way often does not work. This guide will present to you another view, one that I think you'll find far more effective and successful in helping you achieve your fluency and life goals.

You know that you are capable of being, doing and having more. You know that you are intelligent and are able or want to be able to contribute more to your job, class, family, community and world. But, something has been holding you back. You've felt limited, even controlled by stuttering. Well, the great news is that you can learn to start speaking more smoothly, fluently and confidently, but only IF you approach it from a completely different direction.

My name is Michael Williams and I'm the founder of The Start Speaking Training Center and the PRO90D Speech System, and I stuttered for over 20 years. In this guide, I'm going to share with you not only how I have used stuttering as a springboard to excellent speech, but, how I am helping thousands of people around the globe do the same.

If you are truly ready to make a change, and have an open mind, I believe you WILL find something in this guide that will truly transform your entire life. And, I don't say that lightly. This guide contains the pure essence of all of the techniques and strategies I use everyday to help people just like you unlock their speaking potential. This is not hype, or theory. The information contained in this guide is based on Neuroscience, Neuroplasticity, Accelerated Learning Strategies, and real life experience. May this guide be a true blessing to you and everyone your life touches.

New Approach

By Gaurav

I like that author is not focused on stuttering but on how to become more smooth and fluent speaker. So in process of becoming a smooth and fluent speaker you will overcome stuttering. This is a new approach. So you are getting two things for price of one, you overcome stuttering or public fear and also become a smooth and confident speaker. It's a must read.

Great approach. This principle brings fast results: Just focus on good speech and simply forget stuttering. I'll use this book to help teens in our school. This book is a great inspiration. Thank you Michael.
