Like pain only worse.

By MisanthropeX

It's like I read this book on a dare. A friend and I were talking about the worst books we ever read. He told me he knew of a book that would make me wish I didn't know how to read. He was right. This book is one awful cliché after another until it ends in the most nonsensical climax anybody anywhere could concoct. Really. It's like he used the old Speed Racer cartoon as a science reference. Only read this book if you are a fan of junk.
