Never get involved with your patients

That's no problem for by-the-book police department psychologist Kira McGinnis. She has enough on her plate taking care of her five-year-old daughter and her troubled teenage brother. And now she has the difficult—and disarming—Detective Jake Donovan as a patient. Can she ever get him to drop the tough-guy act and open up?

Jake says he'll do anything to get back to active duty. But he doesn't seem to be trying very hard. He has good reason not to trust shrinks, and he doesn't want this one to know what he's thinking or feeling.

The thing is, he'd really like to get to know Kira better—outside the job. But that's impossible, since he is her job....

Watson Delivers Again

By Christina Fixemer

Kira McGinnis is a spirited psychologist working for the local police department. Her latest patient is a handful. Detective Jake Donovan was involved in a shooting and needs to get cleared for duty. Kira finds it difficult to get the man into her office for the mandatory session, and his boss is hounding her to get him back on the street.

The situation with her new patient gets complicated when her younger brother gets in trouble at a bar. She finds out Brian is one of the troubled kids Jake works with at the local high school. It gets harder for Kira to maintain a professional distant from Jake when he keeps showing up to help with Brian, and then, to see her. The attraction is mutual, but she remains conflicted for many reasons, not the least being the welfare of her young daughter.

If they can get past the obstacles that threaten to tear them apart, Kira and Jake will have a chance for a happy future. Will they make the necessary choices to seek out the happiness they deserve?

In Family First, Watson delivers another sweet and very human love story. Her characters are personable and realistic, each strong in their own way. This is the kind of story that reminds readers that it IS possible to find

romance and a happy ending in every day life. It's a fine addition to the Harlequin Super Romance line.

FAMILY FIRST by Margaret Watson

Amazon rating 4/5

"The story centers on Kira McGinnis, a psychologist who works for the police department, and her patient, police detective Jake Donovan, who killed a man in self defense and must undergo counseling before he can return to active duty. Jake resents Kira, who has no patience for him, refusing to give the all clear because he won't cooperate in their sessions. This angers Jake and his superior, Captain Crowley, who wants Jake back on the job.

Kira is a single mother with a five-year-old daughter, as well as responsibility for a troubled teenage stepbrother. Kira and Brian were orphaned when her father and his mother were killed in a car accident, an accident which Brian survived. Kira has been taking care of Brian since their parents' death, and now has a daughter as well, whose father walked out on Kira as soon as he found out she was pregnant. Jake has vowed never to get involved in a serious relationship, for reasons he rarely discloses. There is a lot of sexual tension, and hot and heavy scenes, between Kira and Jake, though each knows the other is not looking for a commitment." -- Complete review at BookLoons - M. Lofton

A novel that kept me intrigued and interested because of it's diverse set of characters. I especially liked Brian, Kira's stepbrother, as well as Kira's cute daughter Lexie. Recommended.

Strong story, wonderful romance

By LL

I really enjoyed this romance novel. The characters have strengths and flaws and quirks, just like people you know in real life. Although they're attracted to each other, they have real conflicts keeping them apart, things they can't fix easily with a conversation. I've stayed away from series romances in recent years because they kept disappointing me. Not this time. I'm going to keep an eye out for more books from Margaret Watson.
