Review

"The reorganization of the text is how the course should be presented to the student during the semester. I really liked that a real world application component was added to each chapter."

"I truly appreciate the completeness with which this text provides real-world applications for the medical professional while assisting the fine tuning of grammatical and syntactical sense. This text will provide material for much career-based and communication based discussion for the growth of all."

" The new edition is organized and the content is relevant and easily applicable to the medical field. Students will be able to recognize the benefit of what they are learning and how it directly applies to their chosen field. There is a wide variety of instructional content and the appendices provide an additional element with a varied approach to meet the needs of all learners."

About the Author

Doreen Villemaire Oberg, M.Ed, RN, CMA, has enjoyed a vast array of experiences during her career as nurse, teacher, and administrator. As a nurse she has worked in intravenous therapy, PACU, ICU, and pediatric nursing. As a teacher she has taught courses for practitioners ranging from administrative personnel through the clinical sciences to medical assistants and health professionals at the college level. As an administrator she brought her medical and educational knowledge together as chairperson of a growing medical assistant program in New England, where she was involved in the development, evolution, and opening of several medical assisting programs. Now she is semi-retired and lives in Florida.
