copyright law

By Chloe

This book is a good text for the copyright subject, but so wordy and worded that you wonder what you just read.

It helps you study but could have been better.

By skbentley

It provides a lot of information but it almost feels too much information. You do need to read a lot of stuff on this book and I felt that it could include more of examples and sample essays or questions/answer type of materials to help you understand the material better.
