Wrong item

By Hev

This product was supposed to be a textbook but it was really the study guide. The description of this item was very confusing and did not make it clear that the item was in fact the study guide. Then the seller would not give me a refund.

Basically Worthless.....

By Online Costumer

I ordered this answer key/solutions manual to go along with my textbook, right? Well this is the worst excuse of a student's aid/solutions manual I have ever seen. It is only about 1 inch thick while the actual Giancoli textbook is 4x this size. Definitely disappointing. There are only about 5 to 10 solutions from the back of each chapter when given like 50 - 100 per chapter in the text book. How do you solve the other problems like it listed in the text book? You're on your own to figure that one out. Because the answer key is very limited on their choice of problems to show. Now, the ones they decided to show were helpful, they did not make it confusing, which is a plus, but that's the only thing I find helpful from buying it. To sum it up, don't buy this manual, you will waste your money. You're better off searching online for a posted manual with similar problems online for free!
