Great tool!

By Spanish Language Learning Category

For adding to your Spanish Vocabulary, this is a wonderful tool.

Bought the entire series in Spanish by BarCharts to go along with the fun Fluenz Latin American Spanish Learning program (also recommend it).

There are a number of them and all are great.

They are all very good tools to use while learning or for quick 5 minute review sessions whilst anywhere.

Rote learning along with conversational Spanish with native speakers is best.

Plastic bonded is easy to keep clean.

Durable for on the go travel.

Love them for quick referencing when needed, especially while writing in Spanish language for guest blog posts not written in your native tongue.

Highly recommend these learning tools.

Like any tools, unused they become useless.

Use them, you can become proficient in the language you wish to learn.

Use it or lose it and the same is held true for languages.

Please pardon the same review for all the BarCharts. They are all great.

Quickstudy Spanish Vocabulary

By Viviana Maria

Wonderful laminated sheets to awaken my brain to Spanish words I learned very long ago. This is so nicely set-up, everything is clearly organized. I have been using this a lot and it has helped greatly.

Useful quick study guide

By Nana T

I bought this in the bundle of 3 and keep it in the front of my Spanish class notebook as a quick and handy reference. It obviously does not have everything one needs to learn a language, but it does hit many important words, rules, and conjugations. It is nicely laminated and I feel that I will use it often in my studies of the Spanish language.
