The adventures of an American hacker in Medieval England continue as Martin Banks takes his next step on the journey toward mastering his reality-altering powers and fulfilling his destiny.

A month has passed since Martin helped to defeat the evil programmer Jimmy, and things couldn't be going better. Except for his love life, that is. Feeling distant and lost, Gwen has journeyed to Atlantis, a tolerant and benevolent kingdom governed by the Sorceresses, and a place known to be a safe haven to all female time-travelers.

Thankfully, Martin and Philip are invited to a summit in Atlantis for all of the leaders of the time-traveler colonies, and now Martin thinks this will be a chance to try again with Gwen. Of course, this is Martin Banks we're talking about, so murder, mystery, and high intrigue all get in the way of a guy who just wants one more shot to get the girl.

The follow-up to the hilarious *Off to Be the Wizard*, Scott Meyer's *Spell or High Water* proves that no matter what powers you have over time and space, you can't control rotten luck.

Good Follow-On to *Off To Be The Wizard*

By Dana L

I enjoyed reading this book. It was a nice diversion, although I didn't love it quite as much as the first. To be

fair, the first book introduced us to an all-new universe, and the second one had to do a lot to avoid just being a follow-on. Scott Meyer came up with some interesting plot twists to throw into this one (Atlantis, the Brits), but at the end of the day, it didn't feel all-new so much as a slight rehash of Book 1. It almost felt like Meyer didn't have enough material for another book.

With that said, I enjoyed reading about the continued adventures of Martin, Phillip, and Gwen. I just hoped that there would be slightly more meat to them than the relatively straightforward assassin plot. I mean, what's the point in repeatedly trying to kill people who can't be killed?

The one thing that didn't really make sense to me was the side plot woven in through the whole story. I assumed that either it would integrate into the main plot or else the book would end on a cliffhanger, making way for a sequel, but instead the author wrapped up that plot quite neatly in just a few pages.

Overall, fans of the first book will probably enjoy this one, but I've definitely read better.

I like it More .....

By E. Adams

A solid follow up to Off to be the Wizard. Very comfortable and quite amusing, some of the gags / punch lines are telegraphed but (IMO) that goes with having your characters somewhat frozen in their maturity levels (geek mode). It should be noted that both the romantic situations and violence are softened and indirect (a PG-13 feel throughout) which I found "charming". While there are some humorously presented deep thought issues (Free will, the nature of knowledge etc.) they do not become a distraction. The two major plotlines are presented much more intelligently than (IMO) book one.

5 of 6 people found the following review helpful.

Count this as 2.5 stars

By Mediocre Gatsby

I really feel like this was a massive step back from the last book. Large portions of the book dragged on, and a lot of it was extremely repetitive. Unlike some other reviewers, I found the Jimmy side story to be the best part of the book. I don't want to get full detailed with this review so I won't go into a spoiler alert breaking down what parts I did and didn't like, but I really felt the ending of the Atlantis dilemma was pretty weak and predictable. The Jimmy portion was actually fascinating. I'd like to read more about his cross continental situation.

I will buy the next book in the series, though. The storyline is very original.
