Good book; not impressed with delivery date.

By Barbara Peterson

The book is wonderful. I'm teaching a course on Presentational Communication for undergrads, and I think this is a great text for that level and purpose.

I paid extra to have this book shipped overnight, and technically it was, but what I wasn't told was that it wouldn't be sent out as soon as I ordered it. So, it was sent out over a week after I ordered it, and then once it finally shipped, it was shipped overnight. I think if you pay to have it shipped overnight, you ought to receive it the next day, not one night after they finally get around to shipping it.
