THE EXTRAORDINARY LIFE OF THE MASTER BEINSA DOUNO BY VLAD PASHOV PDF

Some say I have done a lot. I see that I've done too little. What have I done? I would say that I've done a lot, if I could put the entire world in order and make everybody happy. Now people fight and I sit and speak to myself: I've done too little – I didn't manage to persuade these people not to fight. There are so many judges, convicting innocent people. And I say: I never taught them these laws. Many lawyers advocate injustice. There are many brothers and sisters who do not love each other. I failed to teach them to love. How much work is there for me to do! I am often asked: "Do you preach something, which is in accordance with the church?" I reply: "I preach things, which are in conformity with the great Divine law; I don't lie in the face of God; for me it does not matter if my teaching conforms to your views. For me, it is important that my views are in accordance with the great law, that I don't lie in the face of God, of Heaven, of the Angels and Saints – this is what matters to me. If everybody understands the teaching in this way and think along these lines, there is nothing to be scared about. Some say: "You want to form a sect ". Those who establish sects are, according to me, very petty people. Everybody can form a sect – take an axe and chop a tree – you'll make a sect, or take a hammer and break a stone – you'll make a sect. Sects are easy to make. In an American sect there was a quarrel over an issue –in the consecration of the Eucharist, is the glass supposed to be raised; however those who maintained that the glass was supposed to be raised, forgot to raise it. We often forget what we are preaching and the principle, which unites us. Our objective is to establish the Kingdom of God on Earth. I want to form a sect, but what sect that is? To be conductors of God's law, which would overwhelm all minds and hearts, so that everybody – men, women, children – become sons of the Kingdom of God and start living here on Earth, the lives they should.

A true master

By Peggy Li

The stories of healings and miracles by a man who was clearly not an ordinary human being ARE truly extraordinary. It is wonderful to learn about this sage and loving teacher from Bulgaria who lived from 1884 to 1954. His teachings are ageless gifts that, if taken to heart and practiced, will do much to help heal our hearts and our planet. He was a highly educated man who loved Nature and understood how to collect its energies in a way to lift our spirit and increase health. The reason for giving only four stars is that this collection of priceless stories includes almost nothing about his background or personal life. Perhaps there is just not that much to say? The Master was a mystery, even as he wore his loving heart on his sleeve and

saved the lives of many people. The fact that people still follow his practices and have organized around his teachings says a lot. I found the many typos a bit distracting. This book and the others on Master Duono that I have also read are in serious need of editing. That said, I know I have found a great teacher in Duono and I am grateful for the author/editor/publisher in bringing the Master to us today.

Enlightening stories not available elsewhere

By Greensteves

For students of Beinsa Douno, this book presents valuable views into the life of this extraordinary spiritual teacher. It's probably not the best introduction to his teaching, nor is it a perfect translation. But if you can get past these issues, you will find much of value.
