Read this book twice...

By Janiene Schultz

I read Dale Dauten's book, "The Gifted Boss".

Twice. In a row.

Stayed up until 6 a.m. Sunday morning.

I read it first just to enjoy it. Then I dove in again, studied, took notes.

Mr. Dauten's philosophy is affecting every aspect of my life, and I find myself re-examing all the "givens", because they're not the same after reading this book. Its like down-loading new software for ones entire life. This book isn't only for bosses -- its for anyone who works, anyone who has a relationship with another human being.

So many of my questions have been answered...questions I've had for years. I never understood several of my former employers actions...couldn't figure out what went wrong. Well, his book clears up the confusion, and I believe for the first time that someone understands. Dale Dauten understands because he's been there.

Something wonderous happened after reading and letting Mr. Dauten's book soak in. With the lifting of the fog of bewilderment and heartache, a beautiful sense of well-being has settled in...I simply bask in it.

For the Boss that lives to be different

By Amazon Customer

I thought the Max Strategy by Dale Dauten was by far one of the greatest books on the market for the boss or employoee looking to stand out. But The Gifted Boss has taken first place. If your're a boss looking to compete in today's market and want to get out of the glass rut, then experiment and read this one. If you are an employee and want to grow, then read and find the boss that will teach you, and become a sponge. Wow.

Need some motivation?

By A Customer

Great book to spark your motivation, even if you think you are working for the most political cumbersome company. It teaches us that we can create something different...make a positive impact in our environments and our relationships. Wished had more examples from companies. Was dissapointed to find out the story line was fictional...although it didn't diminish the impact of the book. Might have been better to state that story line fictional up front...manage the expectations. Great insight into making your work place worth going to five days of the week. Can't wait for paperback so can buy for all leaders that I work with. A must for people who need a little spark to ignite the motivation!
