The Kelly incident is a unique story. It happened during a time when things were a lot different than now. When people were really neighbors and actually helped one another. Children listened to their parents and no one knew there were things out in the world that was different than them. The media wasn't there to overshadow every aspect of our lives like it is now. Families were close and depended on each other and life – well, it was just plain simpler!

We have all grown, we have loved and lost. Since 1955 our technology has grown in leaps and bounds and the earth itself is going through many changes. I can only hope as each day passes that we all learn from our mistakes and love what life has to offer. Life offered up my family a little three and half foot tall man that scared the heck out of them and changed their lives forever. The little man is still changing lives today as new generations learn about the “Little Green Men” from Kelly, Kentucky.

5 of 5 people found the following review helpful.

Best UFO case ever!

By Mike Blake

My favorite all time UFO story is the 1955 Kelly Kentucky sighting. I believe the family told the truth. When I saw this book available I had to have it. I personally consider this family heroes for going through what they did. The story is retold here with several other stories people have talked about over the years to the family about the case. UFO researchers will find one story particularly intriguing, and that story is from a military source about what happened to the Kelly green men. I have read over 4000 UFO books and if you want to read about my favorite all time UFO case, read this book. Thank you, Geraldine, for writing it.
