Okay, so I have to first say that I am a HUGE fan of E.L. Beth. I follow her on Wattpad and I read all of her stories. I was especially happy to hear that her stories were being published into ebooks that we could purchase. However, I freaked out at the prices of the books because typically, ebooks like there are usually less than \$5, and this one was \$6.99! I decided to only buy one of my favorites, and price watched the others. Let's just say I'm glad I read all of her stories on Wattpad before they were pulled to be published because I was paying \$6.99 for a book that wasn't even grammatically correct! It was like they just took her story from Wattpad and put it into an ebook format, there was no evidence of editing or revising. The entire format and grammar and spelling of the book were the same as the Wattpad version. No revising or editing at all! This made me extremely disappointed because if I'm paying \$6.99 for my favorite Wattpad story turned ebook, I would like to at least see some grammatical changes and revisions. Other than that, the book's plot was phenomenal! E.L. Beth is the queen of dark romances, and she did not disappoint with this book. I only took off two stars because of my disappointment in the lack of revision, other than that E.L. Beth's writing

deserves a 10/10 because she manages to make the darkest of romances seem sweet.
