Great story but...

By Mikayla

I love star trek fan fiction, especially when it's about Spock's parents. This is a really good story and is worth reading, but the copy I got had one page missing. Luckily it was in a spot that wasn't too important and I didn't miss any crucial information (that's why this still gets a good rating), but still it would have been nice to be able to read all of it without that small "jump".
