Worth the money, but the author should hire a real editor

By monteo

This is a great concept for a series. Unfortunately, the writing makes it hard to read - its like you're listening to your grandpa tell a story, its a good story, but a little corny at times and too many things repeated, and odd points of emphasis. I can't help but think that a good editor would see the potential, but also fix the problems.

Repetitive

By Alexander L. Smith

This book tends to repeat a lot of text. How many times do I have to hear about admiral streth awoken to beat the hocklins?

Forgettable characters and repetition.

By max kurtson

Well endgame is here and I'm kind of relieved that the story come to a conclusion. It is weird reading books only for the overall story and not one bit for the characters or the writing.

During all these books there have not been one character I got interested in and cared about. The aliens are extremely one dimensional and you could sum them up by the two sentences the writer use over and over

again to describe them.

Hocklyn's "Much honor will come to us"

Bears "Let's hunt together"

The amount of repetition in these books are staggering and sometimes even feels insulting to me as a reader as if the writer think I am a goldfish with a three second memory capacity. If you took away the repetition the books could probably be cut by almost a third.

The only thing that have kept me reading is the overall story which is good. To bad that the characters are so forgettable and the dialog is basically just the writer explaining things to the reader for the quadrillion time.
