Knowledgeable and Descriptive

By Amazon Customer

I was interested in learning more about tantric sex and read a few other books before finding this one. I wish I would have seen this one first! It is by far the most knowledgeable and descriptive guide I've read on the subject. I really liked how the author didn't just give basic ideas, but went into great detail, explaining the history of tantra as well as instructions for the stages of achieving the ultimate pleasure yourself. I would highly recommend this guide for anyone who is interested in learning the most they can about the act of tantric sex.

best book!!!!

By mohit singh

This was a great read! The thought that Tantric Massage talks exclusively of the physical part of sex is to a great degree skewed. The motivation behind Tantric Massage was not only to instruct masses about distinctive back rub systems, furthermore to advance a solid relationship between the accomplices and valuably utilize sexual vitality. This book instructs how to do it and gives a brief history about it.
