Romantic Adventurer

By Sequoia

At the time the author fell in love, the Masai were almost completely free of Western influence. No Nike tee shirts. No rock and roll. No skate boards. Only missionaries nearby who could just about keep them from starving but not from going hungry. And these indigenous people had some awareness that, two days journey away, they could dance for tourists and sell them trinkets.

So the man she sees on a Mombasa ferry one day very much represents raw, beautiful, animal masculinity and it completely overwhelms her. And that overwhelm persists against everything from confrontations with wild animals and life-threatening diseases to numbing bureaucracy and her lover's apparently total inability to feel anything toward her but suspicion and annoyance.

I promise you, you'll be envious that any woman can be so oblivious to the universe's persistent attempts to discourage her. Her sense of romantic adventure is remarkable.
